

CUMMINS

Universal JetScan™ Currency Scanners

**Handles as many as 10
different country currencies!**

The Universal JetScan™ Single Pocket and Universal JetScan Two Pocket currency scanners identify the denomination of every valid note to greatly simplify and speed currency processing. These Universal JetScan scanners are available to handle two, five or ten different currencies. In addition the Universal JetScan scanners include advanced sensors to find many suspect notes.

The chart below lists the available currencies that can currently be processed. It also identifies the counterfeit detection sensors that can be used with each currency.
